

Calling all future scientists and engineers!

Want to gain hands-on experience working on a federal research project?

The NCERC at SIUE is seeking undergraduate and graduate students in Chemistry, Biology, Engineering, and Environmental Studies for an exciting research opportunity in the Spring 2018.

NCERC is looking for SIUE undergrads to work with NCERC staff along side top engineers and scientists from the U.S. Department of Energy on a research and training project sponsored by the U.S. Department of Labor. Each student will be assigned to a team and assist with project design, execution, data analysis and reporting for research and development of new bioprocess technologies.

- ⇒ Interviews begin in December 2017, with projects beginning in Spring 2018
- ⇒ Upon acceptance, students must enroll in Research or Internship Course in your major
